PROFESSIONAL EXPERIENCE

Red Nucleus

June 2022 - Present

Frontend Developer

- Developed an enriched **Learning Management System (LMS)** and e-learning **functionality-heavy games** for medical professionals.
- Implemented **web pages** featuring **live scoreboards** with **visually appealing animations**, alongside **game selection** and **customizable setting** pages, and **user/team management** functionalities and UI for the portal.
- Developed **2 e-learning games** with a team of two UI developers, meeting all client requirements **within 2.5 months**. Implemented **custom CSS** and integrated **third-party timer and animation (GSAP)** libraries for logic-heavy functionality.
- Successfully migrated** the product from **Vue 2 to Vue 3** Composition API and **Pinia**, simplifying complex functionalities for a cleaner codebase.
- Developed **2 valuable automation tools** and **1 VS Code extension** with **Vue.js** and **JavaScript**, enhancing the product development team's efficiency and reducing **bug counts** by **40-50%**, enabling timely releases aligned with PI commitments.
- Due to strong hands-on **expertise in JavaScript**, effectively complementing Vue and REST API development, debugging, and significantly reducing bug count.
- Worked with **REST API** along with **Axios** library for seamless interaction with **backend and third party data**.
- Proficient in utilizing **Figma** and **Illustrator** as mockup tools for **pixel-perfect** implementation of **HTML-CSS** structure, integrating Bootstrap or Tailwind CSS. Using these tools helped to enhance designs by **30-40%**.
- Extensive experience utilizing **GitLab** for **version control** and collaborative development workflows.
- Demonstrated unwavering commitment to **Agile practices**, actively participating in **PI planning**, **sprint planning**, and **retrospectives**, leading to commendable improvements in project deliveries aligned with business objectives.
- Mentored** a team of 1 junior developer, facilitating knowledge transfer and guiding them to resolve issues.

Cognizant Technology Solutions Programmer Analyst Trainee

December 2021- June 2022

- Worked on .Net MVC project, specializing in developing fully responsive portal.
- Proficiently used **front-end technologies** including HTML, CSS, JavaScript, Vue.js, Bootstrap, and REST API.
- Responsible for taking a backend data and development of **vue.js components** and focused on **semantic HTML**.
- Completed **6 months of internship** in UI development

EDUCATION

B.Tech: Electronics Engineering (2018-2021)
Vishvakarma Institute of Technology, Pune

CGPA: 8.86
