EXPERIENCE

UI Developer

Red Nucleus

📅 06/2022 - Present   📍 Pune

Experienced in **gamification Portal** and **E-learning Games** Development. The Portal includes different web pages such as Home, Selection of the game, add and edit questions, Live Scoreboards, and game hosting page. The Games are categorized by assessment, teams, UI.

- Collaborate with the design and backend development teams to convert **UI mockups into interactive and responsive web pages** using HTML, CSS, JavaScript and vue.js.
- **Develop** and **maintain** reusable and **scalable** frontend components using powerful JavaScript framework **Vue.js**, following a **mobile-first approach** to ensure seamless user experiences on all devices.
- Worked with **REST API and axios** library to **interact** with backend data**.**
- Used frontend frameworks like **Bootstrap** and **Tailwind CSS** to achieve **consistent** and **visually appealing designs**, ensuring **cross-browser compatibility.**
- Following **Agile methodologies** throughout the Software Development Life Cycle (SDLC), actively participating in **PI planning**, **sprint planning, daily stand-ups,** and **retrospectives** for successful project delivery.
